Opening a private practice can be a very fulfilling and advantageous endeavor if therapists are thoughtful about attracting work that inspires their passion. This course is designed to help therapists create such a practice. Advantages and disadvantages of private practice as compared with agency employment will be discussed.

This seminar also covers:

- avoiding feelings of isolation in private practice
- HIPPA requirements in-a-nutshell
- setting fees
- insurance billing
- patient billing
- billing software
- operating a cash practice
- CPT codes
- electronic billing
- marketing
- taxes
- malpractice insurance
- risk management
- record keeping and
- setting up an office

Examples of patient forms including disclosure statements, release of information, consent for treatment are presented and explained. The clinical implications involved in all aspects of a practice will be explored. A Private Practice Manual and downloadable templates and articles are included in the price of the course.

About the Presenter:

Cynthia Divino Ph.D. is a clinical psychologist who has a thriving, fulfilling, private practice. Dr. Divino has been practicing for the past 27 years and continues to find ways to make her practice stimulating and satisfying using a combination of therapy, teaching, supervision, and psychological testing.
